Autumn & Winter Treatments

It's a great time to EXFOLIATE with MICRODERMABRASION OR PEELS.

The best time to consider peeling your skin is round about now when the cooler months start coming. We offer light, medium and heavy peels that treat a variety of skin conditions or just plain lines and wrinkles- signs of the times.

Depending on the peel there is very little to downtime

AND NO downtime with microdermabrasion-You can have one a week for the best results. It is a great maintenance programme.

Winter is just around the corner which means it's a great time to consider having surgery. You will be healed for summer ready to show off your new sculptured figure. The troublesome areas like the thighs will be gone, and pot belly laid to rest. Come and see the surgeon now and plan for your new summer image.

Your surgeon's consultation is free.

Liposuction is a day case and you are back to work soon after the surgery.

If you need to speak to someone who we have cared for, no problem, we can put you in touch with a client and you can speak to them directly to discuss how they felt all along the way from the initial enquiry to the post operative care and follow up.
