'LOOKING YOUNGER IS ALL ABOUT FEELING GOOD ABOUT YOURSELF'

Our surgical consultations are free and we have many experienced doctors available for you to seek an opinion. Most of the surgeons have 15-20 years experience in the industry. This also means very little waiting time for surgery.

It's Spring

You have a window of about 4-6 weeks to have your boobs, or your bottom, (or your bits) the wayYOU.....want before summer or t-shirt and bikinis season.

You need to organize a consultation then finance, and a bit of help with the kids or someone to keep you company after the procedure and time off work.....home work or work work.

It takes a wee bit of organization and determination AND we are here to help and give you tips along the way.

Most of the procedures need about a week to recover before you return to work. You need to discuss this with us. If you are a wrestler you will need longer, if you are a PA probably a week is good.

If you need to speak to someone who we have cared for, no problem, we can put you in touch with a client and you can speak to them directly to discuss how they felt all along the way from the initial enquiry to the post operative care and follow up.

Give us a call on 3211 7771 or 18 000 image and we are happy to help.

Luscious Lips for Christmas

Aquamid is a permanent filler that can give you those lips who have always wanted. The product is a non re-absorbable, long-lasting product for lips (& facial correction). It remains soft like human tissue once injected and does not migrate from the point of injection.

The procedure does not have to be repeated once the desired result is achieved. In most cases this is after one or two procedures. The skin does

continue to age and if required an extra Aquamid can be injected at a later stage if wanted. Aquamid is used for fuller lips, to remodel or enhance cheeks, chin clefts, reduce deep wrinkles and folds around the lips, nose and between eyebrows. Reduce prominence of scars, correct dents in noses.

An alternate treatment for those lips is Restylane and Juvederm. Temporary fillers, are an important choice, as they give you an idea how your lips or bits will look when treated. Results are immediate. And there we go new fuller kissable luscious lips.

The beauty of the fillers are that they are walk in walk out and occasionally a little bruising, most of the time you are looking good with that little spring in your step that makes you feel good so if you look good- works for me!!!! And I'm 50, oh may goodness, did I tell you that.

Give Cosmetic Image Clinics a call – (07) 32117771 to arrange a time for a consultation as we are happy to help.

What is HyperHydrosis??

Having a wee bit of work done needs a little planning, you all know by know that muscle relaxants can take 3 days to 2 weeks to kick in and when you are treating those sweaty armpits (and hands and feet) it can take a little longer, so to avoid a mad rush for the party season is best to do a bit of research and organize a time to see Dr Ingrid Tall or Dr. Mario Soteriou to discuss your individual needs. The treatment for hyperhydrosis is proving to be very successful and straight forward. The product lasts about 7 months after it kicks in. Remember the consultation is free.

Give Cosmetic Image Clinics a call – (07) 32117771 and we can help.

Hope you are all remembering your sunscreen.

Remember Cosmetic Image Clinics offers a free consultation when enquiring about cosmetic procedures.

We have doctors available every day for wrinkle treatment and lips, latish Wednesday, and Fridays for now. So let us know when you would like to come in.

Phone 3211 7771 or 18 000 image for an appointment. We have new funky rooms in the CBD,

Its fun, its exciting. Look forward to seeing you soon.
